

Genesis 1:1-2 The Big Bang of Creation In the Beginning God created the dark, the earth and the universe

John 20:19 is the Big Bang Moment.

John 20:26 is the Big Bang Moment

Acts 2:1 is the Big Bang Moment.

Acts 13:42 is the Big Bang Moment.

Pentecost is a time parallel to the Big Bang Moment.

Acts 2:1

Acts 20:7 A time parallel to the Big Bang moment.

If you can not see all these Big Bang moments written in exact time parallels in your Bible then your Bible is mistranslated.

Devils are the first to translate and established for your translated Bibles in the pagan sidereal time mode of the week days of the seven pagan sky gods. Study Bible history and learn who are the devils that you let mistranslate your Bibles in Sidereal time mode of the week days of the seven pagan sky gods. Your First Bible translation was made in the English (about 1385) by a member of the Catholic Church John Wycliffe. The Wycliffe Bible is a mistranslation made from the Latin Vulgate Bible and in part from the Catholic Catechism. Take careful note the Latin Vulgate Bible of the Catholic Church does -not have mistranslated the sidereal week days of the seven pagan sky gods. The Latin Vulgate Bible was a good Bible translation before a member of the Catholic Church add chapters numbers for the Latin Vulgate Bible and that is how false chapter are now in your Bibles. When in the twelfth century the Arch Bishop Stephen Langton adds Chapter numbers to the Latin Vulgate Bible then he was very clever to add the sidereal time mode to the Bible by manipulating chapter numbers of Mark 16:1-2. Below is the illustration of the Sidereak week of the seven pagan sky gods.

Exodus 23:13 Make no mention of the name of other gods. Do not let it come out of your mouth.

Written in the true

Natural Time

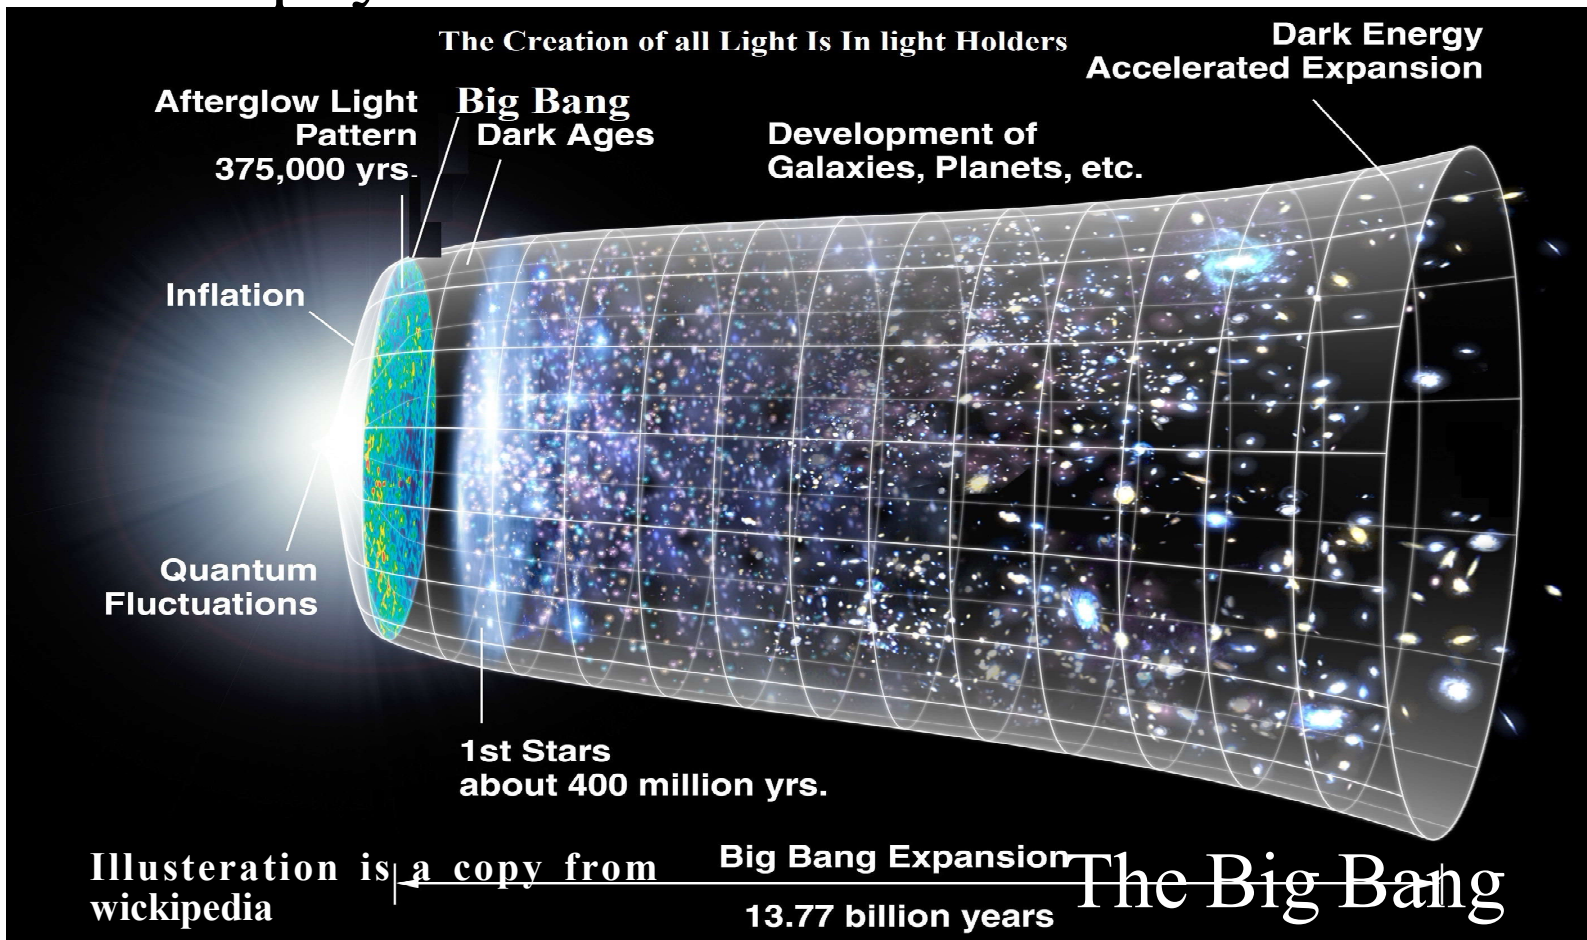

mode of the Bible

Do you worship God at the Big Bang moment of the resurrection that He has set for the night of day one of the seven day solar Sabbaton as time to worship Acts 20:7?

All Popular Bibles are mistranslated in the sidereal time mode. When you let the devil translate your Bible in the sidereal time mode the devils will makes a complete wreck and cripple out your translated Bibles.

Even Astrophysics are teaching the correct time to worship God at the true Bible Bang moment of creation and the resurrection moment on the night of day one. Even some orthodox Jews worship at the Bible Bang moment and prove time to worship God at his Big Bang moment.

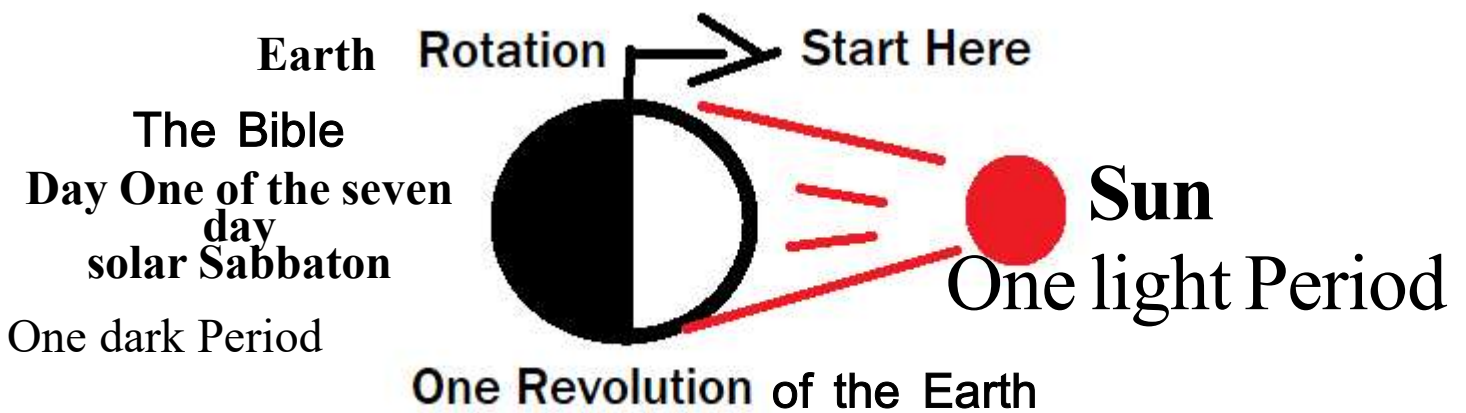

Astrophysicist Teach the Bible is from God

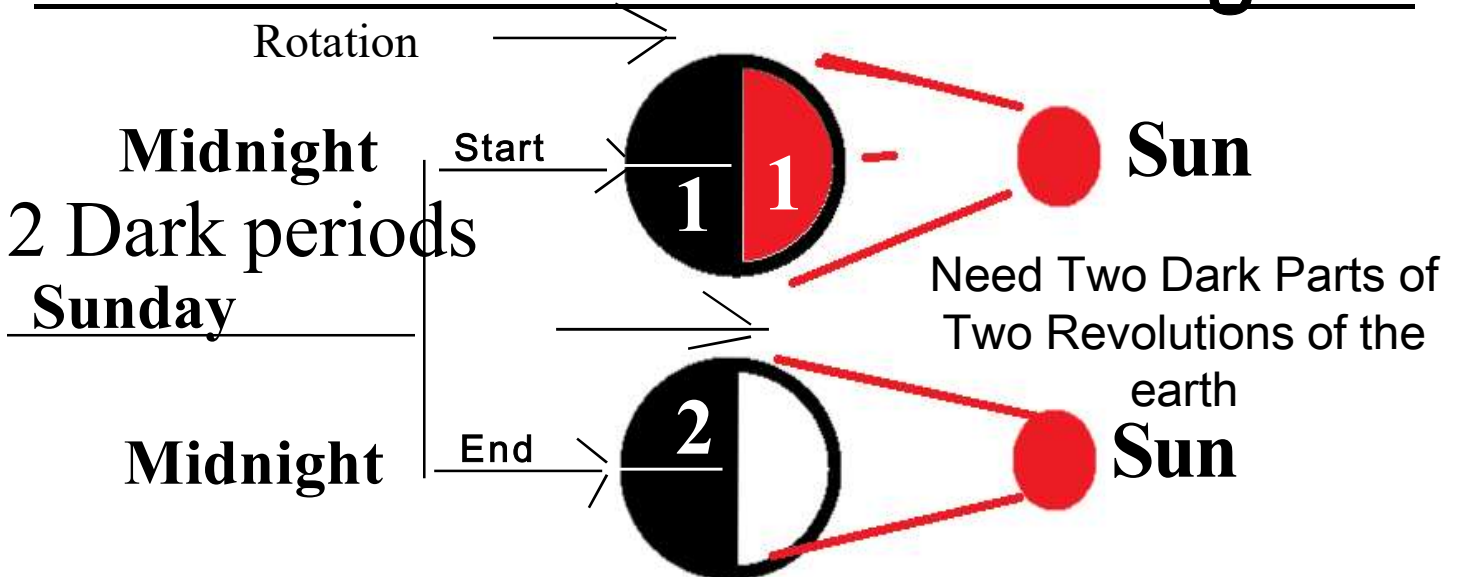

The Ekklesia Bible Translation Reveals That Thirteen Billion Years Is Only Proving That God Is Awesome.

To understand the Bible you must first understand the natural Bible time mode. The natural Bible Time mode, God's day has only one whole night period and one whole light period. In the entire Bible God's day is measured only with the eyes. There is no sidereal time written in the Bible. The sidereal measure of artificial time starts at midnight and must be measured with clocks. You think that God needed a Clock? You think God would set a time for you to worship but you must have a clock to see when to start your worship? God did not establish the pagan sidereal time mode in His Bible.

The Natural Occuring Bible Time mode

A False Sidereal Time mode of Pagans

The Sidereal "Sunday" Needs two different revolutions of the earth upon it's axis to get two totally different dark periods.

Today all popular Bibles are mistranslated first by ruling members of the Catholic Church in the ancient pagan religious calendar of the sidereal week days of the seven pagan sky gods.

Devils established for your translated Bibles the pagan sidereal time mode of the week days of the seven pagan sky gods. This makes the Bible near a complete cripple to convince the higher educated or Billions of people that the Bible from God.

**Truth is The God of the Bible
Does not measure any Time
With a Clock**

**Devils make a
Bible clock.**

Our modern astrophysicists are correct when they teach that the beginning of the creation is the Big Bang moment is the beginning of the dark and the universe.

Take note for the first three days of creation there was no sun moon or stars created for eons of time or until the fourth day of creation (Genesis 1:1-19. Look at the beginning Big Bang of creation is at the first the beginning of millions of years in our solar time first in only one whole dark period. In the beginning only the earth is created to be set on fire to give and to hold the first light on the compressed gaseous clouds of the unformed earth.

The false translation of Bibles in the pagan sidereal time mode of week days requires that you measure your solar day with a clock from midnight to get two complete opposite dark periods from two very different revolutions of the earth upon its axis. Any half a brain can see this sidereal time keeping is not written just once in the entire Bible.

Why are people so wed to their pagan traditions of the false sidereal time mode so that they can not see how awesome God is only in the natural time mode?

Clearly written in the Bible the beginning of the one whole dark period is the Big Bang moment of creation. It is clearly written in the Bible but only in the natural occurring time mode.

I downloaded the scientific illustration on page 3 from the Wikipedia. This illustration is true and is what the Bible is teaching exactly about the moment of the Big Bang. Note the first whole dark period or “Dark Ages” was millions of our solar years. Then take note in the illustration there was no sun created in the first whole dark period for millions of our human solar years.

The true Bible translation of the resurrection moment of Christ on the solar cycle of the Bible Bang of God; Matthew Chapter Twenty-Eight. {28:1} Now late on the Sabbath day, at dusk as it began to light up night towards the [day] one of the solar seven day Sabbaton, came Maria Magdalene and the other Maria to see the sepulcher. Can you see in the natraul time mode the Christ resurrects on the exact solar cycle the Bible Big Bang moment?

We are not saying modern scientists are with purpose teaching the truth to support the Bible. We are saying when the Bible is translated correctly in the natural time mode modern astrophysicists are proving with scientific facts that the Bible is teaching truth of the creation rewords the Bible Bang. Then when Bibles are correctly translated in the natural time mode the resurrection of Christ (Matthew 28:1) is on an exact solar cycle of the exact time parallel to the same exact moment of the Big Bang of the creation (Gen 1:1-2).

The true resurrection moment of the Christ and other miraculous times written in the Bible that are created by God to make exact time parallel in to the exact moment for the Bible Bang of the creation moment. Bible records that are written in astronomical moment when God makes awesome miracles are in exact time parallels to the moment of the Big Bang.

Bibles mistranslated by devils in the pagan sidereal time mode of the week days of the seven pagan sky gods are proven to be false Bible translations. “The Big Bang” has only one whole dark period that starts at dusk. In the Sidereal time mode the Big Bang is measured artificially with a clock six hours later at midnight.

Here is the exact resurrection record in the Ekklesia Bible translation in the natural time mode. The Apostle John is teaching the Christ resurrects on a solar cycle that is a time parallel to the same teaching of our modern scientists when they teaching how the resurrection moment of the Christ is an exact time parallel to the exact moment of “the Big Bang of creation.

John {20:1} Now early [evening], yet it was dark on the day Mia [day one] of the solar sevens, comes Maria Magdalene, unto the tomb, and sees the stone taken away from the tomb.

A” solar sevens” in the Natural time mode is an interpretation of the plural of “Sabbaton” because in the crippled English we have no word equivalent for the Bible Greek word Sabbaton. In our civil Calendar we keep the calendar of ancient Roman pagan sidereal time mode of the week days of seven pagan sky gods. In the above illustration the resurrection moment of the Christ is an exact time parallel to the astronomical miracle of “The Bible Bang”. Can you see the Big Bang moment of dusk of day one of the Sabbaton written precisely in an astronomical miracle in the exact time parallel to all the resurrection records?

Notice that in the Ekklesia Bible there is no hard contradiction in the record of the purchase of spices by the women. The purchase of spices must be moved back to the end of Chapter 15. This stops the hard contradiction made in other Bible translations. The same women purchased spices before the seventh day Sabbath and in this Ekklesia Bible translation there is no hard contradiction. Mark {15:48} And when the [Passover] Sabbath was past, Maria Magdalene, and Maria the [mother] of James, and Salome, bought spices, that they might come and anoint him. (*see parallel record in Luke 23:56). Take note look at other more popular Bible translations all have hard contradictions in these two Bible records. Christ did not resurrect on Sunday morning.

Now read this third visit of Maria Magdalene to the tomb after sunrise some twelve hours past the solar cycle of the Big Bang moment and the same resurrection moment of the Christ.

The Ekklesia Bible {N2)16} Mark 16. Chapter Sixteen. {16:1} And very early [morning] when [day] One of the Sabbaton [is half past], they [the women] come to the tomb when the sun was risen. {16:2} And they were saying among themselves, Who shall roll us away the stone from the door of the tomb? From the resurrection moment of the Christ on a solar cycle of the Big Bang then after sunrise the resurrection moment is -past 12 hours.

Be honest can you see any sunrise resurrection in the above Bible verses? Do you see any hard contradiction in Mark 15:48 from the parallel record in Luke 23:56 like in other false Bible translations? Be honest in the Ekklesia Bible translation do you see any apparent hard contradiction in Mark 16:8 (the women did not go and tell anyone). In this verse there is no apparent hard contradiction as there is in all the more popular translated Bibles.

What I can not understand is why people are so hard to be taught truth about the true time parallel to Bible big bang moment of the resurrection after they have been deceived by their false Bible translations. You do not need to know the ancient languages of the Bible to learn that you have false Bible translations of the resurrection moment of the Christ. The true resurrection moment of the Christ in an exact time parallel to the exact moment of “The Big Bang” taught by modern Scientists.

We warn you to get smart for you eternal salvation and become an expert in learning truth about true natural occurring Bible time and the set time events that God has set for us to worship at “The Big Bang moment.” I challenge anyone to try to prove me wrong in the study of our sidereal time mode that is now mistranslated into all popular Bibles. To make this Bible study of true Bible time will save your eternal life. Do not let anyone deceive you about Bible time to worship God. Worship God at the moment of “the Big Bang” at dusk of Day One of the seventh which in the pagan sidereal time falls on the dusk of Saturday night.

In all the Bibles is just one command we are to gather and worship God at the Big Bang moment. Note this command in Hebrews. {10:23} let us hold fast the confession of our hope that it waver not; for he is faithful that promised: {10:24} and let us consider one another to provoke unto agape love and good works; {10:25} not forsaking our own assembling together, as

the custom of some is, but exhorting [one another]; and so much the more, as you see the [solar resurrection] day [to worship] drawing near. {10:26} For if we sin willfully after that we have received the knowledge of the truth, there remains no more a sacrifice for sins, {10:27} but a certain fearful expectation of judgment, and a fierceness of fire which shall devour the adversaries. Take note, with your eyes you can see the resurrection moment on a solar cycle of the Big Bang.

Did you know that all sciences are now teaching “The Big Bang moment” is the moment of the beginning of the dark and the universe?

If the God of the Bible was very clear to command you to gather and to worship Him “At the Big Bang Moment” then at what time would you gather to worship Him? Would you allow proven scientific facts of the new information age to set your Bible time to gather and to worship God? Would you allow with proven irrefutable evidence of modern sciences to set your Bible Big Bang moment for Worship. If you did allow proven scientific facts to set your Bible time for worship at the Big Bang moment did you know that would contradict near all modern Bibles that are mistranslated in the pagan religion of the week days of the seven pagan sky gods? Now you should see why near all scientist hate the Bibles when they are mistranslated in the Sidereal week days of the seven pagan sky gods.

Did you know that near all Christians that worship on “Sunday” or the “Sabbath day” they allow pagans to set their sidereal time mode to set their Bible day and set their time to gather and to worship their god? What is even more shocking is to see modern Jews allow pagans to set their time to begin and end their Sabbath day at the sidereal midnight.

Modern Science and the Bible “Big Bang moment” go hand in hand only when the Bible is correctly translated in the natural time mode. If Bible teachers would all teach the Bible truth in the natural time mode then the

Bible Big Bang is celebrated in worship at same time parallel to the Big Bang taught by modern sciences. The Bible is teaching that when truth of the Bible in the natural time mode is restored to the Bible then according to the prophecy of Daniel 7:25 the power of the Bible will be restored to evangelize the entire world.

When Bibles are mistranslated in the sidereal time mode of the pagan week days of the seven pagan sky gods then; THE BIG BANG MOMENT WOULD BEGIN ARTIFICIALLY AT MIDNIGHT BUT ONLY IF THERE WAS CREATED A NORTH STAR. "SIDEREAL" TIME MODE MEANS IN THE BEGINNING OF CREATION THERE WAS NO SUN, NO MOON AND NO CREATED NORTH STAR TO MAKE "SIDEREAL" TIME IN A BIBLE. SIDEREAL TIME MODE IS NOT WRITTEN ANYWHERE IN THE ENTIRE BIBLE.

Take note, there was no sun, no moon and no stars created until the fourth day of creation. Then this fact reveals that since there were no stars created until the fourth day of creation it eliminates altogether the possibility of our modern methods of keeping time in the Sidereal time keeping the solar days of the seven pagan sky gods of the sidereal "week." Our modern time keeping system in the "Sidereal" means the North Star (god) the man made clock was not created by pagans for over billions of years. Then if you are a Christian that loves truth you must admit that all the popular Bibles are mistranslated into the sidereal (a star god) time mode of the week days of the seven pagan sky gods.

Did you know that for thousands of years "Pentecost" is the all night worship in the celebration of the annual "Big Bang moment on a solar cycle of the creation of the dark?" Pentecost is celebrated at dusk of the evening on the beginning of the night of day one of the seven day solar Sabbaton.

Did you know that it is written very clearly the Christ resurrected and to be worshipped Acts 20:7 on a parallel solar cycle at the same exact Bible “Big bang moment”? The Christ resurrected and is celebrated at dusk of the evening on the beginning of the night of day one of the seven day solar Sabbaton.

Did you know that Acts 20:7 is the celebration made to God just after the exact seven day solar cycle of the “The big Bang moment?” Acts 20:7 is celebrated to gather in the natural time mode before midnight at dusk of the evening on the beginning of the night of day one of the seven day solar Sabbaton.

When the Bible is correctly translated in the natural time mode there are five different records of disciples gathering at dusk of the evening on day one of the Sabbath which is at the exact solar cycle of the Bible Big Bang moment we have records of disciples gathering to worship.

If your life depends on knowing and telling the truth of the exact moment of “the Big Bang” could you describe the Big Bang moment in the modern sidereal week day of the seven pagan sky god of our modern civil calendar?

To save your eternal life can you describe what is the exact moment of “The Big Bang” taught by scientist in our Civil sidereal Roman Calendar? To save your eternal life at what moment in the natural time mode would you give to describe “The Big Bang moment” of the resurrection of the Christ” that is written very clearly in the Bible? In the sidereal time mode on what moment on what solar cycle on what solar day would you say is the “Big Bang” of the creation of the dark and the universe?

Two most ancient gospels not in our Canon of the Bible are the Gospel of Peter and the gospel of Barnabas are both written so clearly and they cannot be violated to resurrect the Christ at sunrise. Both ancient manuscripts

appear to have been violated to make them appear not to be genuine so that they could not be placed in the canon of the Bible. Both records of the resurrection of Christ are the same as all gospel records and the same as the scientific Big Bang moment of all modern sciences. Scholars have always recognized that such a Gospel once existed, for it is referenced in the writings of Justin Martyr and Bishop Eusebius, although their fate and whereabouts remained a mystery until some were discovered. Now note we do not need these ancient records but they do show how people of the first and the second century believed that the Christ resurrects on a solar cycle of the Big Bang moment taught today by modern scientist.

Barnabas 15:7

But if after all then and not till then shall we truly rest and hallow it, when we shall ourselves be able to do so after being justified and receiving the promise, when iniquity is no more and all things have been made new by the Lord, we shall be able to hallow it then, because we ourselves shall have been hallowed first.

Barnabas 15:8

Finally He saith to them; Your new moons and your Sabbaths I cannot away with. Ye see what is His meaning; it is not your present Sabbaths that are acceptable [unto Me], but the Sabbath which I have made, in the which, when I have set all things at rest, I will make the beginning of the eighth day which is the beginning of another world.

(“I will make the beginning of the eighth day or the moment of the Big Bang at dusk on the night of day one of the Sabbaton or in the sidereal time mode dusk of Saturday night.)

Barnabas 15:9

Wherefore also we keep the eighth day for rejoicing, in the which also Jesus rose from the dead, and having been manifested ascended into the heavens.

Barnabas 16:1

Moreover I will tell you likewise concerning the temple, how these wretched men being led astray set their hope on the building, and not on their God that made them, as being a house of God.

Barnabas 16:6

But let us enquire whether there be any temple of God. There is; in the place where he himself undertakes to make and finish it. For it is written And it shall come to pass, when the seven day solar Sabbaton is being Accomplished (at the end of the soar Sabbaton), the temple of God shall be built gloriously in the name of the Lord.

The end of the Sabbath day is the same solar cycle of the science and the Big Bang moment of the creation of the universe. Now let us look at the gospel of Peter. That gospel appears to be violated to make this record not genuine so you would reject the manuscript because this record of Peter can never be twisted to make a sunrise resurrection of the sidereal week day of Sunday.

Now look at the “good News” or the gospel of Peter clearly describing the resurrection moment of the Christ is at the exact moment on a solar cycle of “the Big Bang” of creation. Verse 9. “And in the night in which the Lord’s day was drawing on [the Big Bang moment Which is today the resurrection moment], as the soldiers kept guard two by two in a watch, there was a great voice in the heaven; and they saw the heavens opened, and two men descend from thence with great light and approach the tomb. And that stone which was put at the door rolled of itself and made way in part; and the tomb was opened, and both the young men entered in.

The Christ clearly resurrects in the night on a solar cycle of the moment of “the Big Bang moment.” Note The gospel of Peter 11 They therefore considered one with another whether to go away and shew these things to Pilate. And while they yet thought thereon, the heavens again are seen to open, and a certain man to descend and enter into the sepulcher. When the centurion and they that were with him saw these things, they hastened in the night to Pilate, leaving the tomb which they were watching, and declared all things which they had seen, being greatly distressed and saying, Truly he was the Son of God.

Think seriously in our civil calendar of the seven day sidereal week at what moment is the beginning of the dark that starts the beginning of the natural occurring seven day solar cycle? The artificial sidereal time mode of “Sunday” starts artificially at midnight but the whole dark period of Sunday begins (at the moment of the Bible Big Bang in the natural time mode) at the dusk of the evening. Saturday night at dusk of the evening is “The Bible Big Bang Moment” at the beginning of the creation of the dark and the universe (*Genesis 1:1-2).

Today only a few outside modern Astrophysicists, astronomers and modern scientists appear to be the only few people on planet earth that know the scientific proven evidence of the exact moment of the Big Bang of the dark and the universe. Look, in the natural time mode the scientist are trying to show the records of the Big Bang of your Bible is true but only when translated in the natural time mode.

Most all modern scientists admit that they know a theory by seeing with gigantic telescopes the evidence exactly when the solar cycle of “The Big Bang Moment” is. Then according to Bible records the beginning of the creation of the dark of the evening is the exact moment of the beginning of the universe in a “Big Bang moment.” The “Big Bang” is -not like an atomic explosion but more like the blowing up of a balloon.

The beliefs of most Christians is based on their mistranslated Bibles that are made first by members of the Catholic Church in the sidereal time mode.

Most Christians do not believe the facts of evidences given by scientists in the natural time mode as proof positive the moment of the Big Bang theory is at dusk of the sidereal (the beginning of the dark) on Saturday night. Even the modern majority of the divided Jews have lost some of the meaning of the most ancient celebration of Pentecost or the celebration worship “the Big Bang moment” in their modern Talmud. The All night Pentecost celebration was at first the celebration of -the Big Bang moment of creation.

The Havdalah worship celebrates at the moment of the Big Bang in the sidereal is dusk of Saturday night. The Big Bang worship of the Jewish “Havdalah” is still celebrated by most Jews but “The Bible Big Bang” of the old Havdalah that was once made to the Havdalah worship was made in the first century to the coming of their Messiah. There is a great Mystery of how the Jews read the prophets and discover the Big Bang Moment of the resurrection of their coming Messiah.

The centuries before the coming of Christ the Pharisee Jews established the unwritten rabbinic law to worship at the end of the Sabbath day for their coming Messiah. One of their verses the ancient Jews will use to establish their Havdalah. The night of the Big Bang worship is found in Isaiah “{30:29} you shall have a [moving] song as in the night when a holy [Passover] supper is observed; and [with] gladness of heart, as when one goes with a pipe to come into the mountain [fortress] of Yahweh, to the Petra of Israel.”

Today the Havdalah worship is no longer made to worship the coming messiah. Messiah worship has been lost to most modern Jews as nothing more than to end the Sabbath day. In their modern Havdalah worship made to God on the sidereal Saturday night worship of modern Jews is on a solar cycle of the exact moment at the end of the Sabbath day or the exact solar moment of “the Big Bang.”

Have you ever in your lifetime celebrated your creator in anything for any reason on a solar cycle of the moment of “The Big Bang? Do you know that there is written record in the Bible in the natural occurring time mode what is the true and exact resurrection moment of the Christ and that resurrection moment is the exact time parallel to the exact same moment modern astrophysicists are teaching; “The Big Bang” of the creation?

Clearly written in the ancient languages of the Bible in the natural time mode that for thousands of years the holy people of God celebrated “Pentecost” as their “The Big Bang Moment” of the creation of the dark of the first evening.

The all night Pentecost is the annual celebration of the creation of the dark of evening and the universe. Do you know what the Bible Big Bang moment is in our modern civil pagan calendar of the sidereal week days of the seven pagan sky gods? The first celebration of the Big bang moment was at the first called the all night celebration of “Pentecost.” The Jews in their Talmud have lost the purpose of the celebration of the Big Bang moment.

Today Millions of people celebrate God at the Bible “Big Bang Moment” at dusk of the sidereal Saturday night but most do not know it is the true resurrection moment of the Christ on a solar cycle of the moment of “The Big Bang.” The celebration of Big Bang moment of the creation is lost because today people worship God on Sunday which is not the big bang moment that modern Sciences today identify as the Big Bang moment of the creation. Even so called “Christians hate the Big Bang moment” which modern science declare as evidence of the beginning of the dark and the universe.

Pentecost Begins At the Big Bang Moment
