

In all the popular Bibles the most dangerous of all Bible translations is Mark 16:1-2 by teaching the women made their purchase of the spices after midnight of the first day of the week or Sunday. Read Luke 23:55-56 and see the record of Luke is proving that Mark 16:1-2 is making many hard contradictions in the resurrection records and false translation by misplacing chapter numbers.

The Bible is teaching not as a theory but as a fact the absolute existence of the Big Bang moment of the creation. It is taught today by modern astrophysicists as the cosmic beginning of the dark and the universe but only in the natural occurring time mode. So how did all our most popular Bibles get mistranslated in the pagan religion of the sidereal time mode of the week days of the seven pagan sky gods?

There are records of “The Cold Big Bang of the dark” written clearly in the ancient languages of the Bible. Those records of “The Cold Big Bang” that are written clearly in the Bible are totally destroyed by a ruling member of the Catholic Church the archbishop Stephen Langton when he was allowed by Pope Innocent III and the ecumenical council to make changes in chapter numbers for the entire Latin Vulgate Bible of the Catholic Church.

The purpose of changing the Latin Vulgate Bible from the natural time mode to the sidereal time mode was to make the Latin Vulgate Bible teach parallel to the same as their Catholic Catechism.

For nine hundred years the Catholic Church wrestled against Protestants and killing millions of them + over the translated Bibles of protestants that taught the Christ resurrected at the beginning of dark or at the Big Bang moment on the first day of the seven day solar Sabbaton. The Seven day solar Sabbaton is a copy of the seven days of creation by God without being measured with the rotation of the earth or the days of creation are not days measured from the light from the sun. There was no sun, moon, or stars created in the first three days of creation.

To this day the most dangerous of all false Bible translation is Mark 16:1-2 made by Stephen Langton first by very clever changing the entire Latin Vulgate Bible from the natural time mode to the pagan sidereal time mode. This change in Bible records is making many hard contradictions in all Bibles to say the women purchase spices -after the Seventh day Sabbath.

When Langton changed the entire Bible from the natural time mode to the pagan religion of the sidereal time mode of the week days of the seven pagan sky gods it makes a complete wreck out of the entire Bible. From the beginning of the new information age now for over seventy years every highly educated scientist that studies the history of keeping “time”. The change in Bible time from the natural time mode to the pagan time keeping of the sidereal time mode of the week days of the seven pagan sky gods causes the majority of all scientists to hate the Bible as being nothing more than a pagan superstition.

A Poll was taken in the year of 2020 and the discovery that ninety three percent of all scientist hate God and hate the Bible (see You Tube and the celebrated atheist and astrophysicists Neal deGrasse Tyson in his teaching "Can science and religion (the Bible) coexist)".

In the pagan sidereal time mode now look at this record of Luke that will say the same women will purchase spices -before the Seventh day Sabbath. Luke 23:55-56. . {23:55} And the women, who had come with him out of Galilee, followed after, and beheld the tomb, and how his body was laid. {23:56} And they returned [after the Passover Sabbath] , and prepared spices and ointments. And on the [seventh] Sabbath [day] they rested according to the commandment.

His name is Archbishop Stephen Langton. He is a very clever dishonest Devil and a ruling member of the Catholic Church. In the early twelfth century Steven Langton was allowed by the readers of all the ancient and all the more popular mistranslated Bibles to change their Bibles from the solar cycle of the true exact moment of the Big Bang, from a natural occurring time mode event of the resurrection of Christ at sunset of the evening to sunrise resurrection in the artificial sidereal time mode. This change in Bible time modes made it impossible to have a beginning "Big Bang of dark" time event by change the Big Bang and the first solar day to start at a midnight. Surely anyone should be able to see this problem the slight of hand created by Langton in Mark 16:1 is the main cause that is making ninety three percent of all Scientist in the United States to hate God and hate the Bible.

Look carefully at this record how it is made impossible to start scientific theory or the Bible fact of a Big Bang in the middle of the night or in the middle of a dark period. The purpose was to change the resurrection moment of the Christ from sunset of evening to a sunrise resurrection.

By manipulating Chapter verses in the Bible Stephen Langton changed the resurrection moment from a solar cycle of the exact moment of the Bible Big Bang of creation to a sunrise resurrection on the day of the sun god, the first day of the Catholic sidereal week of the seven pagan week days of the seven pagan sky gods.

The purpose of changing the Bible record of the resurrection of Christ from the moment of the Bible Big Bang to midnight was to make all Bibles of the Protestants teach the same sunrise resurrection as is taught in the Catholic Catechism. Do you let this man Stephen Langton a ruling member of the Catholic Church to remove the resurrection moment from your Bible that should parallel the Big Bang moment in your translated Bible and should also parallel to prove scientific facts of all Science the Big Bang moment of creation is an exact time parallel to the solar cycle of the resurrection moment?

Langton was a man that clearly hated God and hated what is written in the Bible and hated the salvation of billions of people when he changed the true resurrection moment of the Christ from dusk of the evening of day One on a natural occurring solar cycle of the same exact moment of the Big Bang of the creation to a false sunrise resurrection of the Christ.

Why only a few Bible believers do not believe in modern proven scientific facts of "the Big Bang of the creation taught in the Bible?"

Did you know there is being taught two different kinds of the scientific Big Bang theories; a hot Big Bang and a cold Big Bang? The Bible Big Bang that is taught by astrophysicists as "the Cold Big Bang theory," is an alternative theory in which is the moment of the creation of the dark energy and dark matter, the earth and the universe is the start of the cold Big Bang at the absolute temperature of zero Kelvin. The Bible is teaching in the natural time mode there was a cold Big Bang in the creation of the dark before the creation of the light.

There is a world of people that believe in modern proven scientific facts of science. In the last one hundred years our world has changed from a world of Bible believing religious people to a world of people that do not believe in the Bible because new proven scientific facts that are revealing we have false Bible translations. I am now ninety three years old and I am getting near to one hundred. I see the world of the living changing quickly from a world of Bible religious people to a highly sophisticated world of the machine age unbelievers in God and Bible. The revelation of the Big Bang is proving to Bible believers there is problems with translated Bibles. Bible believers are being made unbelievers in the Bible by scientific teaching of the scientific facts taught in Big Bang of the dark. Our scientists are teaching truth against our false translated Bibles that are mistranslated in the sidereal time mode and the primary problem is Mark 16:1- the purchase of spices is placed in the wrong chapter. The Purchase of spices should be at the end of Chapter 15 to stop all hard contradictions.

For over eighty years proven scientific facts of the Big Bang of the new information age is being taught by Modern Science. Because most people trust the higher educated in the sciences it is the proven scientific facts of the new information age that is having a devastating killing effect on the majority of all Bible believers when Bibles are mistranslated in the sidereal time mode that start their Bible Big Bang on a solar day at midnight. We Bible believers watch as we see the most conservative of all Bible believers are led by proven scientific facts of the new information age to begin to hate God and hate the Bible and then they slide back by the multiplied millions to become unbelievers in God and the Bible.

Amazing how the modern teaching of scientist of new proven scientific facts of "the Big Bang" of the new information age is teaching against false Bible translations of the "sidereal Time mode and all sidereal set times that are mistranslated in Bibles. Modern scientist are teaching facts that contradicts the sidereal Bible time mode mistranslated in Bibles, so that in a twenty square mile area scientific facts cause twelve very large most conservative of all Bible believing members of the churches of Christ that have stopped

believing in God and the Bible and they have closed their church doors forever. Proven scientific facts about the Big Bang is making unbelievers in their Bibles because their Bibles are mistranslated in the pagan religions of the sidereal time of the week days of the seven pagans sky gods and when scientist are teaching these facts the true teaching is killing the religious belief of multiplied thousands of Bible believers.

The most conservative of Bible Believers of the Church of Christ may give other reasons why their Church Members are falling away and closing church doors by the multiplied thousands but none can prove the great falling away was not directly caused from new proven scientific facts of the new information age being taught on Radio, TV, books, magazines, movies the internet and other news sources.

What are the proven Scientific facts of the Big Bang being taught in the new information age that is cause for the great falling away of the most conservative of all Bible believers? The scientific facts that cause the great falling away are the facts of “The beginning of time”. The Big Bang theory that science is teaching supports the truth of the Bible only when the entire Bible is translated in the natural time mode. The problem is that most all Bibles are mistranslated first by member of the Catholic Church in the sidereal week days of the seven pagan sky gods to make the Bible of protestants to teach the same sidereal time mode as is taught in the Catholic Catechism. It is the false sidereal time mode mistranslated in Bibles that wrecks and makes cripple the Bible and sidereal time contradicts both the scientific big bang theory of modern science and the written Big Bang beginning of dark in the Bible record of Genesis.

What is so amazing the Scientist in their Big Bang Theory is teaching the same as the Bible is teaching but only when Bibles are correctly translated in the natural time mode. The Big Bang Theory of modern science is proving we have false translated Bibles. If you know the repeating history of mankind where we are headed in worlds of religion, we cannot exist long with religions of hate that will only make self for certain destruction.

In my studies in the ancient languages of the Bible, my opinion, I do not see people that are making the claim to be believers in the Bible as true Bible believers. Most do not conduct themselves as a true Bible believer which means most people are made to doubt that the Bible is from God and most so called Bible believers do not really believe in the Bible.

Do not let anyone deceive you. The religion of humans is best described as that which the human adores the most is their religion. Whatever the human chooses to like the best is the religion of that human to either love or hate the existence of God or love or hate the Bible. Then to be an atheist that hates God is in truth simply the choice of religion of atheism made by the human.

Do not over look this absolute fact new proven scientific facts of the new information age are making the world a better place. Some question how can new proven scientific facts of the new information age be making the world a better place when it is the proven scientific facts of the new information age is proving to be the cause of multitudes of the

most conservative of all Bible believers to hate God and to hate the Bible? It is facts and real evidence that new proven scientific facts of the new information age make the most conservative of all Bible believers to become unbelievers in God and the Bible.

What the new information age is doing is to change the world to make world a better place. Proven facts are showing the world that we have horrendous false Bible translations that can not stand before new proven scientific facts of the new information age. It is first only through proven scientific facts modern astrophysics show the world that there is either the Bible false translations or else the entire Bible is nothing more than a pagan philosophy and only a superstition.

Highly educated Bible teachers and preachers most will not admit but they can easily see that their Bibles are clearly teaching paganism with many hard contradictions in their translated Bibles. Even most atheist do not know the most crippling parts of all the more popular translated Bibles. The entire Bible was written in the scientific natural occurring time mode but all the more popular Bibles are mistranslated in the Sidereal time mode of the pagan's seven sky gods of the week days.

The scientific study of the different "Time Modes" is the life study of the astrophysicists, the astronomers and other scientists. The higher the education the better all scientists know that our modern civil Calendar week days is at the first a pagan religion of the sidereal week days of seven pagan sky gods.

When the higher educated see the pagan religions of the sidereal week days of the seven pagan sky gods is mistranslated into Bibles then an alarm goes up in the hearts of the true and honest scientists. No truth loving and honest scientist should ever believe in a Bible that has "the first day of the (Sidereal) week" of the seven pagan sky gods written in a Bible. False Bible translators are very careful not to give a full description of "The first day of the sidereal week of the seven pagan sky gods" because false Bible translators know if they did correctly translate their Bibles to give such a true description of the Sidereal week days, few would ever accept their false Bible translations.

No highly educated scientist when they are honest and when they know the world of difference between the natural time mode and the pagan sidereal time mode of the seven pagan sky gods no honest truth loving scientist would accept a pagan mistranslated Bibles that are written in the pagan sidereal time mode of the week days of the seven pagan sky gods.

In my youth when I told our preacher that I was going to study the passion (death and resurrection) of Christ he shocked me by stating that: If you make that Bible study you will lose your Faith (in God and in the Bible). Already I had heard in this man's preaching and false Bible teaching in his agnostics and atheism. In all honesty this preacher has lost his faith in God by making a study of the death, burial and the resurrection of the Christ when seeing the contradictions and false Bible translations. I reasoned if this Bible study caused this preacher to lose his faith in God and the Bible

then I would go and make my Bible study from the ancient languages of the Bible in my study of the passion of the Christ. That was the best decision of my entire life.

Environments of people change but people do not change with the change of their environment. So in any environment the future of people by their conduct of people in the present can easily be predicted by their repeating past history. People for some reason can never be educated to act on their past history to stop self destruction.

Today the majority of our world hate God and hate what is taught in our Bibles that is a fact some teaching of the Bible appears to the higher educated to be just another philosophy or just another pagan superstition. Take note all the more popular of all translated Bibles in the entire world teach a pagan philosophy in the sidereal time mode of the week days of the seven pagan sky gods.

Every person on planet earth has millions of possibilities in our procreation of being the same as other humans on planet earth. In learning our modern science of our procreation only an idiot (some one who can not ever learn truth) would deny that each of us as humans are procreation of our parents. From birth the majority of people today they exist in very different environments in a very different education in public schools from the education one hundred years ago. One hundred years ago you did not graduate from school unless you read through the Bible. The majority of humans today are taught in public schools are made to hate the Bible and altogether think and reason altogether different from people one hundred years ago.

Today it is different, in our public schools we have teachers of philosophy and in all teachers of philosophy no one can be found to believe in God or the Bible. One hundred years ago if a person did not believe in God or the Bible that person would not be hired to teach in public schools. Today no one is allowed to teach God or the Bible in public Schools because the people are stupid and they allow the minority to rule over the majority.

In all the popular Bibles the most dangerous of all Bible translations is Mark 16:1-2 by teaching the women made their purchase of the spices after midnight of the first day of the week or Sunday. Read Luke 23:55-56 and see the record of Luke is proving that Mark 16:1-2 is making many hard contradictions in the resurrection records and false translation by misplacing chapter numbers.

The Bible is teaching not as a theory but as a fact the absolute existence of the Big Bang moment of the creation. It is taught today by modern astrophysicists as the cosmic beginning of the dark and the universe but only in the natural occurring time mode. So how did all our most popular Bibles get mistranslated in the pagan religion of the sidereal time mode of the week days of the seven pagan sky gods?
