

## **The Primary Difference In The Ekklesia Bible**

### **Agape Kind of Love In Bible translation Has Serious Issues**

If your Bible does not emphasize creating and maintaining the agape kind of love for God and all people, including our enemies, then you have a dangerous mistranslated Bible. The Greek New Testament specifically commands us to “agape” kind of love for God, ourselves, and all others, including benevolent care for the welfare of the God of the Bible, for self and for all others including our enemies.

In English Bibles, the word “agape” is often simply translated as the word “love,” which when translated the word “Love” does not begin to describe what kind of love or human emotion God is commanding his holy People to hold for Him, for self and for all others including the enemy. To translate the Bible word Agape as ‘Love’ is wrecking the command of God by obscuring the specific word meaning for the Bible word that is describing one of the different but the most important commands of God in all human emotions in the different kinds of ‘love’ written in the Bible.

Bible translators must clearly convey this type of love commanded in the Scriptures. “Agape” kind of love is one of many different human emotions described by different words written very clear in the ancient language of the Bible. However, as we see when the majority of all Bibles simply translate in English all the different commands of different human emotions with just once word “love” which has a special different human emotions this dangerously distorts each very important word meaning.

The Bible translation that uses only the word “love” does not adequately describe the kinds of love (human emotions) commanded by God. God does not allow His holy people to choose their own type of emotion to love Him, to love self and to love others. Christ commands us to qualify as children of God by exhibiting the “agape kind of love” a genuine benevolent care for the welfare for God and for all others, even for our enemies (see the Greek of Matthew 5:44-45). The Ekklesia Bible is the only translation that accurately reveals this command of God to hold the agape kind of love.

### **The Old Covenant Hebrew Word Equivalent for the Greek word Agape.**

When Christ was ask by the Pharisee Jews “What shall I do to inherit eternal life. Christ replies with a question” What is written - as the agape kind of love written in the old law”.

Luke {10:25} And behold, a certain [Pharisee Halakah] lawyer stood up and made trial of him, saying, Teacher, what shall I do to inherit eternal life? {10:26} And he said unto him, What is written in the law [through Moses]? how [do] you read? {10:27} And he answering said, you shall agape love the Lord your God with all your heart, and with all your soul, and with all your strength, and with all your mind; and [agape] your neighbor as [you agape love] yourself. {10:28} And he said unto him, you have answered right: this do, and you shall live. Amazing Christ is teaching that the word equivalent for the New Testament the Bible word “agape” kind of love or; Our God is the Agape kind of love is also written as the command in the Old Testament.

One of the most important of all Bible true Bible translation for the studies must be made only in true Bible cosmology. God of the Bible will create awesome astronomical miracles in exact time parallels of time and in certain set time events to worship Him made to prove the Bible is God breathed. To fail to translate the entire Bible in the true cosmological “time mode” (How all of Bible time must be measured) is established in the Genesis account of Creation and to translate a Bible in an altogether different time mode will make a total wreck and complete cripple out of the entire Bible when mistranslated in a different time mode of Bible cosmology.

To change the creation time mode written in the Bible to the pope Gregory sidereal week days of the seven pagan sky or planet gods will totally wreck the commands of God to worship at certain set time event. See how all popular translated Bibles mistranslate the cosmological time mode of their Bibles in the ancient religious pagan sidereal week day of the seven pagan sky or planet gods. To translate the Bible in a different or a “false time mode” of the seven pagan sky gods of the week will wreck ever prophecy made about Bible time. Christ prophecies Christ being three day and three nights in the heart of the earth (Matthew 12:38-40) is made a total wreck when your false Bible is made to say that Christ resurrects on “the first day of the week”. . To change Bible time mode will completely make a wreck this prophecy of Christ can easily be make a total wreck of the Bible by translating the Bible in the wrong “time mode”. The study of Bible cosmology or the established Bible time Mode (how all of Bible time is to be measured) written in the Bible is established as sacred law of God. To change time mode in Bibles will change the laws of God written in the entire Bible.

The Ekklesia Bible claims to restore the sacramental law of God in the established time mode of the Genesis records of creation to dismantle the perceived barrier that exists now between proven modern scientific knowledge and the Biblical narrative.

Only in the Ekklesia Bible translation presents the astronomical miracles of Biblical cosmology in the way that aligns precisely with the creation records, ensuring the ancient languages of the Bible are translated accurately revealing there is an entire different resurrection moment of Christ and the altogether different time that God has set for the Holy people of God to worship Hebrews 10:25. In modern translated Bibles Hebrews 10:25 is made a total mystery when to gather in this worship from false Bible translations in a “false time mode”.

The discovery of written precise and exact time parallels of astronomical miracles of cosmological timed events as described only in this Ekklesia Bible is unique only to this Bible translation which is totally different from all other translated Bibles in the entire world. Recorded awesome astronomical Miracles when written in exact time parallels will distinguish the Ekklesia Bible from all other Bible translations worldwide except for some dictionary word interpretations of the original Latin Vulgate Bible of the Catholic Church.

The Ekklesia Bible translates the entire cosmology of the Bible in the established "time mode" of the creation records, providing a level of precision unmatched by any other Bible translation in the English language. While many modern Bible translations claim to be true to the original texts, they prove not true because they incorporate the pagan religious Pope Gregory sidereal week day calendar, which artificially begins the false Bible solar day at midnight with a clock.

The God of the Bible did not create the universe based on a clock, a fact recognized for centuries by modern scientists. Consequently, Bibles when they mistranslate with the Pope Gregory sidereal week day calendar into their Bibles they fail to gain the acceptance the majority of honest, truth-loving scientists.

When the entire Biblical cosmology is mistranslated using the Pope Gregory sidereal week day calendar, it creates a total disconnect between proven science and the Bible. The sidereal word "week" when mistranslated in Bibles is making a total wreck and a cripple out of any false translated Bible that use the sidereal word "week" to describe the Greek Bible word Sabbaton (Or Hebrew Shabuah) to describe any Bible time or set time event.

When the written cosmology of the entire Bible is mistranslated the false cosmology of the Pope Gregory sidereal week day calendar we declare those false Bibles when translation in the time mode of Pope Gregory sidereal week day calendar is making in all the popular translated Bibles a total wreck and a cripple out of these false translated Bibles. To translate the Bible in the pope Gregory sidereal week day calendar turns the Bible into confusing and the unreliable document in the eyes of any honest truth loving cosmological scientists when they must study learn the same cosmology written in the Bible and they are the first to know and understand true written Bible cosmology. To the highly educated cosmologist scientists to read a Bible translated in the time mode of the Pope Gregory sidereal week days of the seven names of seven pagan sky or planet gods is totally disgusting. This is the main reason to this day when there was a poll was taken to see how many elite scientists believed in the Bible when translated in the Pope Gregory sidereal week day calendar only seven out of one hundred believed in a God of the Bible.

In the true translation of Bible time mode (how Bible time is to be measured) by Jerome in translating The Latin Vulgate Bible; look Jerome did not translate the Latin Vulgate Bible in the sidereal time mode. Jerome translated the Latin Vulgate Bible into the true Genesis account of creation time mode and look in the Latin Vulgate Bible is the true Bible time mode and was never changed by rulers of the Catholic Church until the archbishop Stephen Langton made false chapter number in the early 13<sup>th</sup> century. The archbishop in his manipulating chapter numbers in Mark 16:1 that has completely changed Bible time mode written in the Latin Vulgate Bibles. All other translated Bibles that follow the false translation week day time mode in The Latin Vulgate Bible.

See what is written very clear up to the 13<sup>th</sup> century in the Latin Vulgate Bible is still measuring the Bible day from dusk of the evening, as indicated in Genesis account of creation. Instead it was the Catholic rulers that led the world to change the dictionary interpretation of the Bible word "Sabbaton" (the cycles of the solar sevens") to be the same as the Pope Gregory sidereal week day method of starting the seven day solar cycles of all Bibles to from start artificially with a clock from midnight. Since the 13<sup>th</sup> century all translated Bible have been made a total wreck from translating false Bible cosmology.

All Bible days of the sun are established in the Genesis account of the creation must be translated to start with the beginning of the dusk of the dark of the evening on the night of Day One.

Today all popular translated Bibles start their solar day the ancient pagan religion of the sidereal week to the midnight beginning an artificial measure of a solar day that starts with a clock at midnight. Only certain Catholic Christians changed their worship practices, while strict orthodox Christians maintained the time keeping written in the Latin Vulgate Bible.

Additionally, in all Bible translations the term "Ekklesia" is a sacred law of God in warfare made by holy people of God against the gates of Hades or Hell (Matthew 16:18).

In the Latin Vulgate Bible the word "Ecclesia" was never just once altered in the Latin Vulgate Bible of the Catholic Church. However the Bible word Ecclesia was changed in the dictionary definition by ruling Catholics to the pagan "Circe" that has over the centuries evolved into the modern word "Church" or the pagan "Catholic Church of Christ." Again look the Ekklesia of Christ was not changed only in Catholic Latin Vulgate Bible but was changed only in Bible dictionaries to a "Catholic Church of Christ".

It wasn't until the 13th century that the Catholic priest published the Wycliffe Bible, altering the Bibles in the English translation from the established calendar in the Genesis creation "time mode" to the ancient Babylonian, Egyptian and the pope Gregory sidereal week day calendar of the seven pagan sky or planet gods. Most modern Bible translations still adhere to this ancient pagan sidereal week day calendar system.

The Ekklesia Bible stands alone in the English language as the only translation that strictly follows the established "Time Mode" of the creation records, ensuring that every time-related event in the entire Bible is accurately translated. No other Bible translation in the world claims to mirror the creation records as precisely as does the Ekklesia Bible translation.

The original phrase "day one" of the Greek word "Sabbaton" (the seven day cycles or the solar sevens) remained unchanged in the Latin Vulgate Bible but the dictionary interpretation of the Sabbaton the Latin was converted to the Pope Gregory sidereal week day calendar of the seven pagan sky or planet gods after the Roman Emperor Constantine wrote his edict of AD 321 has changed the established Sabbath (rest) day to a Sabbath (rest) of Sunday.

There is only one other Bible translation the original Latin Vulgate Bible of the Catholic Church before they add Chapter numbers is the only other Bible in the entire world that mirrors precisely the true written cosmology of the creation records precisely as does the Ekklesia Bible translation. The Catholic Church does not accept or interpret their own true Latin Vulgate Bible translation of this true time mode written in their original translated Bibles of the fourth century. The problem with near all Bible translation is the archbishop Stephen Langton of Catholic Church was allowed to make Chapter number for all Bibles in the world except for the Ekklesia Bible translation. Why would the Catholic archbishop manipulate Chapter numbers to in Mark 16:1 change the true resurrection moment of the Christ from sunset of the evening to a sunrise resurrection? His purpose was to make all translated Bibles of the Protestants teach the false Catholic Catechism of the Catholic Church.

There was a need after the death of Christ and after the Passover Sabbath for the women that followed Christ from Galilee to purchase spices to put on the dead body of Christ. The same women that come from Nazareth to Jerusalem purchased the spices after the Passover Sabbath it was before the seventh day Sabbath as is recorded in Luke 23:54-55. When you allow the archbishop Stephen Langton to manipulate chapter numbers to make the record say the women purchase spices after sunrise and after the 7<sup>th</sup> day Sabbath the purpose is clearly with malcontent and dishonest. Then you as an honest Bible translator need to show the spices were purchased after the Passover Sabbath and not after the 7<sup>th</sup> day Sabbath.

The Archbishop Stephen Langton of the Catholic church was very clever when he made chapter numbers for the book of Mark 16 by manipulating Chapter number 16:1 to start with the apparent need to purchase Spices to put on the dead body of Christ after "a Sabbath day". The question is the need to purchase spices but after which "Sabbath day". The archbishop when he should make chapter numbers with the need to purchase Spices was after the Passover Sabbath and not after the 7<sup>th</sup> day Sabbath. Then the need to purchase spices in the record of Mark should have been placed the end of chapter number 15. Instead he very clever starts the need to purchase spices in chapter 16:1 with the need to purchase spices after sunrise on Sunday morning some twelve hours after Christ has been resurrect for over twelve hours. The clever archbishop to make the resurrection of Christ fit the Catholic Catechisms of a sunrise resurrection he very clever manipulates chapter numbers to make the record appear to need to purchase spices after the 7<sup>th</sup> day Sabbath and not the Passover Sabbath. The archbishop very

clever spliced together with after the sunrise visit to make a need to purchase spice to put on the supposed still dead body of Christ and to create a false sunrise resurrection day record with the third visit of Maria Magdalene and other women coming again the third time to the empty tomb after sunrise on the pagan solar day of "Sunday".

After sunrise on Sunday the body of Christ has been already resurrected for over 12 hours. The archbishop was very clever to join "the need to purchase spices to after sunrise on Sunday and to create the false record of a false sunrise resurrection of the Christ on a Sunday morning.

To make chapter number 16 the archbishop very ingeniously joins this record of the apparent need to purchase spices to put on a dead body of Christ with the women coming the third time to the empty tomb was after sunrise on Sunday. Do understand this fact that at sunrise on Sunday morning is the third visit after the resurrection of Christ Maria Magdalene is coming to the tomb the third time and she knows to be a fact that after sunrise on Sunday the tomb is empty. After sunrise on Sunday morning all the women know for a fact that before they get to the tomb that the tomb is empty since the true resurrection of Christ was at dusk at the beginning of the night before. The women coming to the empty tomb for the third time they know this for a fact that the tomb is empty from the first two visits to the tomb by Maria Magdalene in the night before.

This false record of Mark 16:1 is made with purpose by the archbishop Stephen Langton in his clever joining the need to purchase spices "after a Sabbath day" to the sunrise visit of the women to the empty tomb. By simply very clever the manipulating chapter numbers about when the women were coming to the empty tomb for the third time after the resurrection and "after sunrise Sunday (first day of the sidereal week) is the twisting by the archbishop to create the appearance to need for the women to purchase spices "after the 7th day Sabbath" to put on the dead body of Christ.

True there was written the need to purchase Spices is after "the Passover Sabbath day" (but when translating the need to purchase spices was after the Passover Sabbath day and not after the 7th day Sabbath) is a serious but dishonest false Bible translation. The archbishop was clever to manipulate the need to purchase since after "a Sabbath day" and then create after sunrise on the 7<sup>th</sup> day Sabbath the women are made to appear the need to purchase spices and to make a false sunrise resurrection record of the Christ.

**Why do ruling Catholics need the Bible to read to support a false sunrise resurrection of their Christ?** Discovered In the most ancient sun worship is made in the ancient Catholic catechisms. Every icon, every painting of catholic "Holy People" "Saints" with the sun sign of the Halo around their heads, in their worship of the Eucharist [Monstrance](#) of the sun god is used in their sunrise Eucharist worship at the most ancient worship to a sun god in a "Break Your Fast" is the

most ancient worship made first to the sun god Mithras (see The Mystery religion of the Roman emperor Constantine in Catholic Catechism). (See book Constantine the Great by John Holland Smith.)

To make the Bible read a false sunrise resurrection The Catholic archbishop Stephen Langton in creating chapter numbers for all Bibles (except the Ekklesia Bible), he in Mark 16:1 is joining the Bible record of "the need to purchase spices" together with the after sunrise the third visit of Maria Magdalene to the empty tomb after the night of the resurrection. This actual record of the need to purchase spices is made "after the Passover Sabbath" and not "after the 7th day Sabbath" (see the parallel record of the same women with the same need to purchase spices in Luke 23:54-55).

Take careful note the after sunrise on "Day One" the solar "Day One" of the Greek "Sabbaton" ("Sabbaton" is the cycle of the sun or the solar sevens) is half over and can be translated true as being after sunrise on Sunday. However it is the third visit of Maria Magdalene to the empty tomb, some twelve hours after the resurrection of Christ on the night of Day One of the Sabbaton (\*The Solar Sevens). Come let us count the records of the three visits of Maria Magdalene coming to the empty tomb proving positive Christ did not resurrect after sunrise on Sunday morning. First read Mark 15:40-42. Then read the parallel record in Luke 23:44-45. Then read John 20:1 Maria Magdalene is coming first to the empty tomb in the early dark in John 20:1. Then Maria Magdalene is recorded to returning in the same early dark of the night to the empty tomb to see and to speak to Christ before he ascends up to the Father 20:11-18. Then Maria is recorded to come again to the third time to the empty tomb after sunrise in Mark 16. Can you see the sinister purpose of this very clever manipulating chapter numbers to make a false sunrise resurrection of Christ on Sunday morning? This false translation of Mark 16:1 is making many hard contradictions in the entire Bible and this is a false translation of the resurrection records of Christ.

For centuries there exist the history of certain honest truth loving both Catholics and protestants and others that have tried to restore to the Bible the true Bible translation of the true resurrection moment of Christ and restore to the Bible the word "Sabbaton" (the solar Sevens) only from out of ignorance of true Bible cosmology to be confronted with a wall of rejection against making a true Bible translation because in Mark 16:1 is such a powerful mistranslation and true Bible cosmology is so complex even the most intellectual of all Bible translators cannot discover this very complex false Bible translation of Mark 16:1. Over fifty years I have taught against this most dangerous of all false Bible translations and most people that I have taught do not yet fully understand the gravity of this most dangerous of all false Bible translations.

There is history of ruling Catholics translating for protestants their Bibles such as the Wycliffe Bible is published in the 14<sup>th</sup> century by Catholic priest (Not Wycliffe who had mysteriously died before the Catholic priest published the Wycliffe Bible). Then the Catholic Church published the Wycliffe Bible and is copied by the Darby Bible translation. Then centuries later the history of first translations of the Catholic "The Christian Community Bible (Apostolic Edition) and others try restore to the Bible the establish Genesis time mode and make a true Bible translation to mirror the Genesis records of creation.

Many have tried but all Bible translators that tried to restore "true Bible time mode" they all have failed. The reason they fail is the mysterious most complex of Bible cosmology is the false translation of Mark 16:1. Not one Bible translator appears that they could not discover the serious problem made in Mark 16:1. How many years (about fifty) I have looked at this false Bible verse of Mark 16: 1 knowing there appears to be something is wrong but what is wrong the purchase of spices after sunrise is a had contradiction to others resurrection records?. For all those years I know something in this translation of Mark 16:1 is wrong but I could not see what was wrong? Today when I try explaining the problem of Mark 16:1 to Bible scholars they appear bewildered in unbelief. They have never studied true Bible cosmology to be able to understand the trickery made by the archbishop in Mark 16:1.

All Bible Greek words in Mark 16:1 are translated correct making the record near impossible to discover to be a false Bible translation. Because Bible translators cannot discover the clever manipulating chapter numbers made by the clever archbishop Stephen Langton in the record of Mark 16:1. The clever twisting chapter numbers is making the record appear to be saying that the women that are coming to the empty tomb "for the first time" and the record is made to say after sunrise of Sunday the women appear to "need to purchase spices" to put on the dead body of Christ. When the fact is after sunrise on Sunday the Body of Christ that has already been resurrect on the beginning night of Day One of the Sabbaton for over twelve hours.

So clever is this false Bible translation by manipulating chapter numbers that it is well hidden and the violating the resurrection record it is near impossible to discover that after sunrise on Sunday the Women are coming to the empty tomb for the third time and we know for certain that they know that they do not need to purchase spices after sunrise on any part of Sunday.

Mark 16. Take note the record is teaching true that the women are coming to the empty tomb for the third time and this last time they did not need to go and tell anyone (Mark 16:7) a false sunrise resurrection is making this record appear to be a "hard contradiction" but in truth the women did not need to "go and tell anyone" and this record is not a hard contradiction. That written record "The women did not go and tell anyone" was never was what most thought to be "A hard contradiction" because Christ did not resurrect on any part of any Sunday morning.

Can you see there is made many hard contradictions in all popular translated Bibles when mistranslation in the Pope Gregory sidereal week day calendar? You will see there is not one hard contradiction in all the resurrection records in the Ekklesia Bible translation.

Here are the different Bible translations that make true translations of the true resurrection moment of Christ on the night of day One but correct only in the Book of Matthew 28:1.

1) The Darby Bible translation Mat 28:1 Now late on Sabbath, as it was the dusk of the next day after Sabbath, came Mary of Magdalena and the other Mary to look at the sepulcher.

2) The Apostolic Bible Polyglot interlinear Bible (Charles Van der Pool). Matthew 28:1 And Late on the Sabbath, in the evening on the beginning night of Day One of the Sabbaton, Mary Magdalene, and the other Mary, came to view the tomb.

3. The concern of the French Catholic Priest Francés Bernado Hurault (1924-2004) was a French Claretian priest and biblical scholar, and originator of all "The Christian Community Bible" translations. I believe this Catholic priest appears to be an honest man. He is recorded to have devoted his whole life to this work of a Bible translation of The Christian community Bible. The Catholic Priest Francés Bernado Hurault was in the first history of the translation of the Catholic Christian Community Bible (The Pastoral Edition). The Catholic church needs more people like Frances Hurault.

The purpose of this Bible translation appears that this Catholic priest was a devoted honest man and he appears to love truth as he was trying to restore the true resurrection moment of the Christ to his Bible translation as is written very clear in Matthew 28:1. At the first Christians community Bible is teaching truth that Christ resurrect "as soon as you can see the first star in the night". The word in "week" in the English but in the French is "Semaine" which can mean seven solar days of any kind of a different measure. Take note any Bible word that does not express true Bible time is a false Bible translation. Then to translate the French word "Semaine" as being the same as the Bible Greek word "Sabbaton" is a false Bible translation. The Greek word Sabbaton must describe the seven solar cycles as Bible days that begin and end with the dark of the evening. The certain kinds of a seven day solar cycle must be either transliterated or interpreted. The French word "Semaine" cannot be correctly translated into the Bible as the seven solar days cycles in the Bible cannot stand for the sidereal week days or any other false Bible time keeping.

Apparently The Catholic Priest Hurault did not understand the word "Week" or "Semaine" cannot be correctly translated in the English or the French Bible. I agape loved this Catholic Priest and I tried to communicate with this Catholic priest but I never received a reply from him.

The purpose of this true Bible translation is appearing to try to restore the awesome power of truth to the Catholics in the true resurrection moment of the Christ in Matthew 28:1.

In this new first Translation of the Christians community Bible, the Catholic church This French Catholic Priest appears to be trying to lead the members of the Catholic church back to the true interpretation of God's awesome resurrection moment at the established supper hour which is restoring the true and exact moment that "Jesus" resurrects from the tomb (Mat 28:1).

A Translation or the true interpretation of the Resurrection moment of Jesus by the Catholic Pastoral Bible "After the Sabbath, at the appearance of the first star, on the first day of the week, Mary Magdalene and the other Mary went to visit the tomb. Suddenly there was a violent earthquake: the angel of the Lord came down from heaven, went to the tomb and rolled the stone away from the entrance of the tomb and sat on it" (Mat 28:1). This true Bible interpretation (not a Translation) was published first about the 1965 edition of the New Catholic Christian community Bible the Pastoral edition. Knowing this Greek record was a correct interpretation of the true resurrection moment of Christ I immediately made a purchase of this first publication of the Christian Community Bible translation.

The poor but honest Catholic Priest Francés Bernado Hurault did not discover or he did not know how to correct the problem of Mark 16:1 in his Christians community Bible translation. His true interpretation of Matthew 28:1 is making A Hard contradiction of the record of the false resurrection of Christ in Mark 16:1. A false sunrise resurrection in Mark 16:1-2 as being a "sidereal week day" cements to say false that there is a sunrise resurrection and other ignorant Catholic priest and all the ignorant people and they all begin to reject the true interpretation of the resurrection moment was at sunset of the evening in Matthew 28:1 in the Christian community Bible. At that time (1965) even I did not know what was causing the problem with all Bible translations in Mark 16:1.

In the Philippines It was not very long before this true interpretation of the resurrection in Matthew 28:1 was reverse back to a false sunrise resurrection in the revised version of the Christian community Bible.

In the first Christian community Bible the resurrect record is saying this Christ resurrect as soon as you see the first star in the night. A near perfect interpretation (not a translation) of the true resurrection moment of Christ. In the Catholic Church there was a wall of opposition against this true translation and the Christian community Bible translation was then recorded to be sent to be finished translation in country of Chili. From Chili the Christian community Bible was moved on to be completed in the Philippines. The Christian Community Bible began to be produced in 1986 when Rev. Alberto Rossa to be finally published. This true Christian Community Bible translation was doomed to not to be a true Bible translation of the true

resurrection moment of Christ because the Bible translators did not know what to do with records of manipulating chapter numbers in Mark 16:1. When this record Mark 16:1 is never corrected and is left twisted to say "after sunrise on Sunday the women coming to the empty tomb for third time after sunrise on Sunday and the women need to purchase spices to put on the dead body of Christ; but is later translated like all other false translated Bibles to resurrect a false Christ "after sunrise on Sunday". This false translation of Mark 16:1 is the bane that is making a wreck and a cripple out of every false translated Bible that says Christ resurrects on Sunday morning.

In the established creation record ruling Catholics misinterpret the seven day solar cycles as the Pope Gregory sidereal week day of the seven pagan sky gods. Here is the example of their dictionary interpretation of the original Greek word Sabbaton is translated correct in the Latin the word "sabbatum", i, ». (also in pl.sabbata, orum), (1) sab-bath; (2) This Latin Bible word Sabbatum (solar sevens) is interpreted as a false dictionary word "week", x C.16,2.. The ancient Babylon, Egyptian and pope Gregorian sidereal "week day" calendar is an artificial solar religious calendar and each week day is named to give glory and honor to every week day as being named after some pagan sky or planet god. A week day does not mirror the established records of creation that determines how the Bible solar day is to start natural occurring at dusk of the evening. The ancient pagan religious sidereal week day calendar starts solar days artificially with a clock at midnight.

3) The outstanding Apostolic Bible interlinear translation by Charles Vander Pool in his true translation of Matthew 28:1 is the correct Bible translation of the true resurrection moment of Christ. However Look in Mark 16:1 is making the hard contradiction to Matthew 28:1. There are many Bibles that translate Matthew 28:1 correct but they make this same hard contradiction in Mark 16:1. They cannot discover by the clever manipulating the chapter numbers to join the purchase of Spices after the Passover Sabbath to be instead the purchase of spices is made to appear to be after the 7<sup>th</sup> day Sabbath to make the false sunrise resurrection is what the problem is in Mark 16:1.

This Ekklesia Bible is translating the exact parallel the entire written Bible cosmology in the established time mode of the creation records is found translate precise to the records of creation as the only true translated Bible in the entire world. All the modern popular translated Bibles in the world that make the claim to be a copy from the original are a translation supposedly make the claim to be a true translation near as possible to the original. Take note all the other more popular translated Bibles are mistranslated in the Pope Gregory sidereal week day calendar of the seven names of the seven pagan sky or planet gods. The question remains if the Bible is not a pagan religion then how did the pope Gregory sidereal week day calendar of the seven pagan names of seven pagan sky or planet gods get mistranslated in all popular translated Bibles.

The false Bible sidereal week day calendar that starts artificially with a clock at midnight (about six hours after the Bible solar day starts) . Know this fact that the God of the Bible did not

create the universe with the need for a clock. To start the Bible solar day there is no need for a clock. That fact is that in all Bible records from creation the solar days there was never just one ever that is to be started with a clock at midnight. As a Bible student you may not know true Bible cosmology but modern higher educated Scientist all know this to be a fact the universe was not started with the pagan pope Gregory sidereal clock calendar of the seven pagan sky gods. When your Bible is mistranslated in the pope Gregory clock calendar you will never get an honest truth loving scientists to believe in a false translated Bible with the pope Gregory clock calendar mistranslating the Bible Greek word "Sabbaton" as being the same as a sidereal week of solar days artificially divided with a clock from midnight

When the written cosmology of the entire Bible is mistranslated in the false cosmology of the Pope Gregory sidereal week day calendar we declare this false Bible translation of pope Gregory sidereal week day calendar when mistranslate in Bibles is making a total wreck and a cripple out of the entire Bible. The Pope Gregory sidereal week day calendar when mistranslated in other Bibles is creating in the hearts and minds of honest truth loving scientists the impregnable wall between all of proven science and the Bible.

Take note the translated Latin Vulgate Bible of Catholics was not changed from the Genesis method of measuring the day from dusk of the evening to the pope Gregory sidereal solar calendar and needing a clock to start the solar day artificially with a clock at midnight. Only the time to worship of the catholic Christians was changed but what is written in the strict orthodox Christians did not change their written time to worship from what is written very clear in the original Latin Vulgate Bible.

The Bible Greek word "Ekklesia" has no word equivalent for purpose or for the function of the Ekklesia in the English language. Because there was no words equivalent for the Bible word in the Latin then Jerome the translator of the Latin Vulgate Bible transliterates the Bible word "Ecclesia" in the Latin Vulgate and the purpose or the function of this true Bible word "Ecclesia" was never changed in the Latin Vulgate Bible of the Catholic "Church of Christ". Do you fully understand that most amazing fact? Read it and see the purpose of Ekklesia was never changed fir Catholics but the word Ekklesia is changed only in all popular translated Bibles of the Protestants and other Bibles for the Catholics.

The true written Bible words "day one" of the Sabbaton, the Latin "Sabbatum" (the seven day cycle of the solar sevens) was never change to the pope Gregory sidereal week day calendar or it is not written just once in the Latin Vulgate Bible that Christ resurrect on the first day of the week of the seven pagan sky gods. The Catholic Latin Vulgate Bible calendar was never allowed to be changed to the sidereal week day calendar until well into the 13th century.

The catholic priest in about 1386 AD was the first to publish the Wycliffe Bible for a protestant Bible in English and here in the history we see the change the Bible calendar to the solar day starting first in the evening and changed to start artificially with a clock the Bible solar day at midnight. The change was made first in the Wycliffe Bible translation by the Catholic priest changing the Bible records from the creation "time mode" (method of measuring Bible time) to the old Babylonian sidereal week day calendar of the seven pagan sky gods today identified as the pope Gregory sidereal week day calendar. Most all modern translated Bibles today keep the pagan sidereal pope Gregory calendar in their modern Bibles.

The Ekklesia Bible is the only translated Bible in the entire world that is certified by facts to be translated only in the established "Time Mode" of the creation (how in all of Bible Time must be measured and every set time event in the entire Bible must be translated correct in the established time mode of the creation account). There is no other such translated Bible in the entire world making the claim to be translated precise as in the records of creation as does the Ekklesia Bible.

2) The Ekklesia Bible is translated as the Ekklesia of Christ as is written in the ancient languages of the Bible because there is no word equivalent in the English languages to describe the hot militant warfare that is established by Christ in his established Ekklesia. The only other true translated Bible in the entire world that has the Bible word "Ekklesia" that is written as the true word "Ecclesia" is the Latin Vulgate Bible of the Catholic Church and "The Will Bible" translation made by Arsenia of the Philippines. All other Bibles choose to translate the common Greek Bible word Ekklesia as the passive word "Church". True well document History of the false Bible word "church is proven to be from pagan religious practice and is first mistranslated and is published by Catholic priests in the Wycliffe Bible as a passive "chirche" (kirke). The Wycliffe Bible was published by Catholic priest and the Wycliffe Bible was not published by the dead John Wycliffe who had been dead for years before the Wycliffe Bible was published in about 1386 AD.

3) The Ekklesia Bible is the only translated Bible in the entire world that translates the Bible that describes the different kinds of human emotions of altogether different kinds of "love". We see the God of the Bible in writing the Bible then God defines precise with what kind of human emotion that we are to be loving God, self, and all others including our enemies.

The sacred law of God written from the beginning of creation in the entire Bible does not allow people that are made holy to choose their own kind of human emotion to "love Him" to be loving God, self, and all others including our enemies. One of the most important commands giving in giving the sacred law of Christ he commands holy people to qualify them as children of God is what Christ identifies as "The great command" to agape kind of love God and agape kind of love all others including our enemy (Matthew 5:44-45). No translated Bible in the entire

world outside the Ekklesia Bible translates proving God of the Bible does not allow His Holy People to choose their own kind of human emotion they identify as their own kind of “love” to hold for God, for one another or for their enemy.

In our crippled English there is no word equivalent to describe the different human emotions that are written in the Greek of the Bible for the different kinds of love. The crippled English has only one word “Love” that is impossible to express the different kinds of human emotions that are written in the Greek of the Bible. Then it become the responsibility of the Bible translators to translate and to interpret these different kinds of love written in the Bible

that expresses the very different kinds of human emotions of very different kinds of love. The purpose of the Ekklesia Bible is to reveal these different kinds of human emotions of love to the world precisely as they are written and used different in the different Bible instructions. The entire world desperately needs this Ekklesia Bible translation of the different kinds of love commanded by God to the entire world.

4) The Ekklesia Bible in every case removes from the Bible the translated Obtuse not very clear Bible translation in Bible verses that give the opposers of God room to create false or different Bible religions. Example Paul in Ephesians 2:8; is giving the same example in Titus 3:5 but Bible Teachers seize this difference in translation to create a false doctrine. Another example is the Bible word “Baptize” must not be “transliterated” to allow different dictionary word definitions for the Bible word “baptize” as it does today in other Bible translations, because we in the English do have the true word equivalent that describes perfectly clear what the intent of “Baptism” is; “the immersion of a person in water”. False Bible dictionaries give support to false Bible translations in the Bible word “Baptize’.
